16th SEL-Congress in Cluj, Romania, 25–31 May 2009

The proceedings of the congress will be published in the journal *Entomologica romanica* in 2009. In the May 2008 issue of that journal, the proceedings of the 20th Symposium on Entomofaunistics in Central Europe will be published.

There will be an exhibition room where it will be possible to show thematic exhibitions. Interested persons are requested to contact us as soon as possible.

The localities of the post-congress excursion in the Carst area of the Aries Valley offer unique collecting possibilities. This area, where more than 1800 Lepidoptera are recorded, belongs to the most species rich regions in Europe. Additionally, the area offers many unique geological, ethnographic and architectural features. At the time of the Congress, a leaflet with diverse information will be available.

16. SEL-Kongress in Cluj, Rumänien, 25.–31. Mai 2009

Die Vorträge werden in der Zeitschrift *Entomologica romanica* voraussichtlich noch im Jahr 2009 veröffentlicht werden. In dieser Zeitschrift werden im Mai 2008 auch die Beiträge des 20. Symposium für Entomofaunistik in Mitteleuropa erscheinen.

Wir bieten einen Ausstellungsraum, im welchen wir gerne eine thematische Ausstellung zeigen. Interessenten sollten sich so bald wie möglich bei uns melden.

Die Exkursionsziele im Karstgebiet des Aries-Tales bieten einmalige Sammelmöglichkeiten. Das Gebiet mit seinen über 1.800 bekannten Arten gehört zu den artenreichsten in Europa. Hinzu kommen geologische, ethnographische und architektonische Unikate. Bis zum Tagungstermin wird hierzu eine informative Broschüre gedruckt.

16^{ème} Congrès de la SEL à Cluj, Roumanie, 25–31 mai 2009

Les comptes-rendus du congrès seront publiés dans la revue *Entomologica romanica* en 2009. Le numéro de mai 2008 de cette revue inclura les comptes-rendus du 20^{ème} symposium sur l'entomofaunistique en Europe centrale.

Une salle sera disponible pour tous ceux qui voudraient montrer une exposition thématique. Cettes personnes sont priées de nous contacter le plus tôt possible.

Les localités de l'excursion post-congrès dans la vallée d'Aries offrent des possibilités uniques pour collectionner. Cette région, avec plus de 1800 espèces de lépidoptères mentionnées, appartient aux régions les plus riches d'Europe en ce qui concerne le nombre d'espèces. En plus, la région offre des curiosités uniques dans les domaines de la géologie, de l'ethnographie et de l'architecture. Pendant le congrès, une brochure avec des informations diverses sera disponible.

Call for cooperation

I am planning a study on the molecular taxonomy of *Adoxophyes orana* (Tortricidae). Therefore, I would like to compare specimens of this species from various European countries with Asian ones. The specimens can be best conserved in 100% ethanol in an eppendorf or any other suitable recipient.

In case you cannot preserve the specimens in alcohol, freshly collected material will also be acceptable as long as it is not killed using ethylacetate or other chemicals which break down the DNA molecules.

Please, send the specimens to the address indicated below. Thank you very much for your cooperation.

Societas Europaea Lepidopterologica

Societas Europaea Lepidopterologica is the European society for the study of moths and butterflies and for the conservation of these insects and their natural habitats.

The society was founded in 1976 with the aims of promoting collaboration among the lepidopterists of Europe, Western Asia and North Africa, and of promoting conservation of Lepidoptera and their habitats. The society now has in excess of 600 members. The membership of the Societas Europaea Lepidopterologica comprises a large proportion of the active European professional researchers in the fields of Lepidoptera systematics, morphology, behaviour, faunistics, biogeography, biodiversity, ecology and conservation biology...
